WILL PROMOTE IRISH TRADING

(Correspondence Associated Press)

DUBLIN, Aug. 10. The Irish Industrial Development Commission has decided to send a commission to the United States to promote Irish trade interests there, and Irish manufacturers and other buyers or sellers in the American markets are showing keen interest in the enterprise.

In this connection the reports of five Irish banks are made public. They show that the amounts they hold on deposit and credit accounts total 96,000,000 pounds, being an increase of nearly 25,000,000 pounds over last year. It is estimated that when the results of the Royal bank and of the three Belfast banks are known and added the total Irish

bank deposits will be seen to be about 150,000,000 pounds.

The project of making Galway a great trans-Atlantic port has been revived. The scheme proposed would cost 2,000,000 pounds or which parties interested would put up 500,000 pounds and ask the government to supply the balance. A deputation to the government has been arranged.

Since the Irish housing bill has passed through parliament the local authorities have submitted for the approval of the local government board proposals for 224 sites comprising more than 1900 acres. Of these 41 have been approved already covering 780 acres and sufficient for 5580 houses. The chief housing activity so far is in Munster which has put forward more than half of the projects.

London banking offices are fast coming depleted of their women employees, so as to make room for returning soldiers.

ARSENIC FOUND IN LUNCHROOM COFFEE

CHICAGO, Aug. 29. Arsenic was found in samples of coffee taken from a downtown lunchroom where thirty persons were poisoned, according to Health Commissioner Robertson. He expressed the opinion that someone had put poison in the coffee urn with malicious intent and the police were asked to search for the guilty person. It is expected that all of those taken ill after eating at the restaurant will recover.

After a day of questioning, employees of the lunch room all were released and the police concluded that carelessness must have been responsible for the presence of poison in the coffee. No criminal intention was indicated.

During the last year nearly 1,000,000 acres of woods in England were felled for war purposes.

PUSSYFOOTING WITH THE WETS

(Correspondence Associated Press)

LONDON, Aug. 1. "Pussyfooting" is the term the newspapers and British liquid interests have given the campaign to make England dry, and "pussyfoot" is the title they have given those members of parliament and American anti-saloon league workers who are pressing the movement.

It has been announced that there is abundant money behind the movement, and the success of a parliamentary prohibition party has been forecasted by some members of the house of commons to first fight for the rejection of war time liquor regulations while forming their lines for more drastic action.

Harrowgate, a health resort with some 50 general practices, was selected as the first object of attack and a number of speakers were sent there to spread the "dry" doctrine. It was also decided to pay particular attention to Scotland where, under new regulations, local option is possible. Other plans were announced are in the making and within a year the campaign will be in full swing.

Most of the newspapers have done nothing but ridicule the movement, and urge that owing to the climate British men and women needed stimulants and would never voluntarily relinquish their alcohol.

Lady Henry Somerset, late president of the British Women's Temperance Association, is quoted as expressing the opinion that the prohibition campaign will do positive mischief by making prohibition appear to be the sole alternative to a return to the pre-war position.

The liquor interests say they have not taken the question much action, preferring to believe that the prohibition experiment in the United States will fail and therefore there will be no need for action in England.

SAY, you'll have a streak of smokeluck that'll put pep-in-your-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, then, to hit the peak-of-pleasure you land square on that two-fisted-mann-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokehrottle wide open! Talk about smoke-sport! Quality makes Prince Albert so

appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! P. A. can't bite or parch! Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. for what ails your particular smokeappetite!

You buy Prince Albert anywhere where tobacco is sold. Tossy red bags, tidy red tins, handsome pound and half pound tin tins and—
—that classy, practical pound crystal glass humidor with sponge moisture too that keeps the tobacco in such perfect condition.

Pancakes all America loves

No wonder these pancakes have become America's favorite breakfast! One taste will tell you why.

It makes your mouth water just to look at them—they're so nice and brown. Then you cut them—and find them so tender your fork cuts through a whole pile. But it's when you taste them—taste that rich, delicate

flavor—that you'll never be satisfied with ordinary pancakes again!

Ask your grocer for a package of Aunt Jemima Pancake Flour. It's all ready mixed (even sweet milk is in it)—you just add water. Learn why so many millions of Aunt Jemima breakfasts are enjoyed every year! Use it for delicious muffins, too!
